

## **2014 CAMEROON GCE RESULTS ANALYSIS; YOUR GUIDE TO ENGLISH-SPEAKING CAMEROON'S BEST 25 SCHOOLS**

*Source of raw data and Advanced Level honours list; GCE Board's Results Booklet.*

*Full quantitative and qualitative analysis of results including performances in English and maths, quality of grades, ranking schools in each academic category, overall ranking of schools etc were all done by Fako UK/Fako News Centre.*

### **Part A; English Language and mathematics (the core subjects)**

English is the language that defines the English-speaking Cameroonian. It has to be taught well, spoken well and written well. It is the medium through which English-speaking pupils and students are taught in schools hence it is the most important subject at the Ordinary Level. This year, 89,821 candidates sat the English exam at the 'O-Levels' and 77,911 failed (86.74 per cent failed). In mathematical ratios, this means that out of every 100 candidates who sat the English exam, roughly 87 failed. This is very shocking. Another embarrassing statistic is that only 4 candidates in the whole country had an A grade in English language; one from Sacred Heart College Bamenda, one from Our Lady of Lourdes Bamenda, one from PSS Mankon, Bamenda and one from GBHS Etoug-Ebe. The 77,911 candidates who failed English would have to re-sit GCE O-levels in the coming year(s) if they want to study beyond high school. This is because no matter how intelligent one is, passing English language is a prerequisite for gaining admission into all institutions of higher learning in English-speaking Cameroon and the rest of the English-speaking world.

In mathematics, 86,724 candidates sat the exam and 78,568 failed (90.60 per cent failed). This is a disgrace. No wonder even though some students passed the O-levels overall, they still burst into tears because they failed English and/or maths. They and their parents knew straight away that they (students) would have to re-sit the GCE O-levels or else they would be stuck after their A-levels.

## **PART B; THE BEST STUDENTS**

At the **Advanced Level**, **Christine Enowmbi Tambe** of **Saker Baptist College, Limbe**, came **1<sup>st</sup>** in the whole of Cameroon with 5A grades and having the highest average score within the grade 'A' boundaries in all her subjects, beating every other student who had 5A grades. *The list of the best 32 candidates and the schools they came from can be found at the end of this report.*

The Cameroon GCE board mistakenly omitted the physics O-level results from the results booklet and so the O-levels honour list that was published was inaccurate. The board promised that the O-levels honour roll would be re-done.

## **PART C; THE BEST 25 SCHOOLS**

The ranking of schools is based on exam results and nothing else. It is left on schools, proprietors, PTA and ex-students associations to investigate why their schools have done very well or performed below expectation. We have looked at seven measures for each school and put them under sub-measures of **Quantity** and **Quality**; five for O-levels and two for A-levels. They are;

- 1) **O-levels**;(i)Quantity: a) overall percentage pass rate, b) percentage of students who passed overall **including both maths and English**  
(ii)Quality;a) the average number of A grades achieved, and then expressed as a percentage of the highest grade 'A' average in Cameroon, which was achieved by Sacred Heart College Bamenda(3.78 A grades per student), b) the percentage of students who achieved an A grade in maths, c) the percentage of students who achieved an A grade in English.

All the percentages from above are then added together to give a total score for O-levels.

- 2) **A-levels**. At the A-Levels, students specialise in what they are good at, so we use two measures only; overall percentage pass rate for Quantity and the percentage grade A average for Quality. Sacred Heart College Bamenda had the highest grade A average at the A-levels (0.9647). The two percentages above are then added together to give the total A-levels score.

**And then, the Overall ranking=points for O levels plus points for A levels.**

### **THE TOP SCHOOLS**

1<sup>st</sup>) **Sacred Heart College, Mankon, Bamenda** (557.66 points total)

**O-LEVELS;** (a)**Quantity:**(i)all111 students passed, giving 100% pass rate, (ii) 106 out of the 111 students passed overall **including both maths and English**, giving 95.50%, 1<sup>st</sup> in Cameroon.
